

Regarding Hill Cipher/Jack Levine theory.

Things to try if interested. Review clock mechanisms and potential grid. Insert the Q@ position 1.
 Review resulting table symmetries below. Bottom row decrypted via Kryptos Tableau. Ex: T top row,
 follow column down to Q, read over to extra alphabet 1=J, etc,

T	I	S	Y	O	U	R	P	O	S	I	T	I	O	N
1	2	3	4	3	3	3	4	3	3	2	1	2	3	2
Q	O	B	K	R	U	O	X	O	G	H	U	L	B	S
