

Incorporating AAAAAAA Masking (August 8, 2019)

Adding onto the prior attempt to create a public one-time PAD key from K4 and MUYKLGKORNA (BERLINCLOCK) decode crib:

AAAAAAA Masked text, unable to recover and may need some human judgement. Seven "A" in one column is *very unusual* and non-random.

Comments Next step is to look for stenographic clues on KRYPTOS to verify a possible algorithm for K4 public key transposition. Who is "J", what is the "BPLAY" and who is "BERLINCLOCK" (HEZWIVUNO, J)?
