Proposed English Masking Technique:

K4 English masking technique is very straight forward. It uses a five digit binary # with a simple transposition (5 rows by 97 columns). Since the 5 digit binary has 32 possible combinations and English has 26 letters we are left with 6 additional characters. For now let us assume the letters repeat and we will use the lower case for these:

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	a	b	c	d	e	f
0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1
0	0	0	0	0	0	0	0	1	1	1	1	1	1	1	1	0	0	0	0	0	0	0	0	1	1	1	1	1	1	1	1
0	0	0	0	1	1	1	1	0	0	0	0	1	1	1	1	0	0	0	0	1	1	1	1	0	0	0	0	1	1	1	1
0	0	1	1	0	0	1	1	0	0	1	1	0	0	1	1	0	0	1	1	0	0	1	1	0	0	1	1	0	0	1	1
0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1	0	1

The binary # for each letter is given vertically. For example the letter O is 0 1 1 1 0.
Now we replace the K4 plain text with the binary number vertically by columns and read off the original letter horizontally.

O	B	K	R	U	O	X	O	G	H	U	L	B	S	O	L	I	F	B	B	W	F	L	R	V	Q	Q	P	R	N	G	K
0	0	0	1	1	0	1	0	0	0	1	0	0	1	0	0	0	0	0	0	1	0	0	1	1	1	1	0	1	0	0	0
1	0	1	0	0	1	0	1	0	0	0	1	0	0	1	1	1	0	0	0	0	0	1	0	0	0	0	1	0	1	0	1
1	0	0	0	1	1	1	1	1	1	1	0	0	0	1	0	0	1	0	0	1	1	0	0	1	0	0	1	0	1	1	0
1	0	1	0	0	1	1	1	1	1	0	1	0	1	1	1	0	0	0	0	1	0	1	0	0	0	0	1	0	0	1	1
0	1	0	1	0	0	1	0	0	1	0	1	1	0	0	1	0	1	1	1	0	1	1	1	1	0	0	1	1	1	0	0

etc.....

Do you notice anything?Look BelowWe have our key!

E	N	D	y	a	H	r	O	H	N
0	0	0	1	1	0	1	0	0	0
O	B	K	R	U	O	X	O	G	H
0	0	0	1	1	0	1	0	0	0

If we read off left to right we get:

D	I	S	A	T	a	G	f	O	O
R	C	B	O	R	D	Q	F	I	N
F	C	O	B	B	K	I	E	H	D
S	M	c	N	R	S	K	A	R	D
f	C	J	S	L	C	Q	C	E	C
F	V	S	b	C	C	e	Y	K	P
V	Y	K	C	P	e	T	J	L	J
A	L	D	e	a	V	B	R	J	F
S	d	c	c	C	S	B	T	K	D
b	b	R	P	F	I	B			

If we do frequency analysis we get: (Top as written, bottom assume lower case are same as upper case)

3	6	10	6	2	5	1	1	4	4	5	3	1	2	4	3	2	6	7	3	0	3	0	0	2	0	2	3	3	1	3	2
A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	a	b	c	d	e	f
5	9	13	7	5	7	1	1	4	4	5	3	1	2	4	3	2	6	7	3	0	3	0	0	2	0						

The distribution looks like it could be English after Maybe a simple substitution and possibly transposition.

Maybe someone with a computer program can finish it off.
